mobashshirasad4863@gmail.com | [linkedin.com/in/mobashshirasad](https://www.linkedin.com/in/mobashshirasad)

Computer Science undergraduate passionate about Artificial Intelligence, Machine Learning, and Data Analytics. Experienced in building ML models, Retrieval-Augmented Generation (RAG) applications, and data visualization projects using Python, TensorFlow, and modern AI frameworks. Strong foundation in Data Structures, Algorithms, Object-Oriented Programming, and problem solving. Seeking internship opportunities in AI/ML and Software Development.

SKILLS

Technical Skills:

- Python, Java, C++
- ML & Deep Learning (TensorFlow, Keras)
- Data Analysis (Pandas, Matplotlib, Plotly)
- DSA, OOP, DBMS, OS
- Git, GitHub, Gradio, LangChain, HF

Interpersonal Skills:

- Problem Solving
- Team Collaboration
- Clear Communication

Strengths:

- Quick Learner
- Analytical Thinking
- Adaptability

ACHIEVEMENTS

Scholastic Achievements

- Participated in three AI and software development hackathons, building functional prototypes under strict deadlines
- Actively solving Data Structures & Algorithms problems on LeetCode for interview preparation

OTHER DETAILS

Date of Birth: 28/09/2004

Languages: Hindi, English, Urdu

GitHub:

github.com/asadmobashshir

Interests: AI/ML, Software Development

EXPERIENCE

Creative Team Member | IEEE Jamia Hamdard Student Branch Sept 2024 - Oct 2025

- Contributed to the creative team, designing visual content and branding material for society events and outreach campaigns.
- Collaborated with cross-functional teams to plan and promote technical workshops, seminars, and flagship events.
- Helped strengthen the student branch's online presence through consistent, engaging creative assets.

PROJECTS

University RAG Chatbot | LangChain, Hugging Face, Vector DB, Gradio Feb 2026

- Built a Retrieval-Augmented Generation chatbot to answer university-related queries using semantic search.
- Developed a complete pipeline including document ingestion, embedding generation, and vector retrieval.
- Designed a Gradio interface for seamless interaction and quick information access.

Finance Tracker | Python, Data Visualization Aug 2026

- Developed a personal finance management system to track income, expenses, and savings.
- Created interactive dashboards using Plotly and Matplotlib for financial analytics.
- Automated expense reporting to improve budgeting and spending analysis.

ANN Regression Model | TensorFlow, Deep Learning June 2026

- Implemented an Artificial Neural Network for regression-based prediction tasks.
- Designed a multi-layer architecture using ReLU activation and Adam optimizer.
- Optimized model performance through experimentation with network parameters and training strategies.

EDUCATION

UG - B.Tech CSE | Jamia Hamdard, New Delhi 2027 (expected) | 8.56 SGPA

XII Board - CBSE, Science | St. Xavier's Jr/Sr School 81%

X Board - CBSE | St. Xavier's Jr/Sr School 86.2%

PARTICIPATIONS / CERTIFICATIONS

- Hackathons:** Participated in three AI and software development hackathons, building functional prototypes under strict deadlines
- Certifications:** Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate; IEEE Xtreme 18.0; Machine Learning A-Z (Udemy); Python for Machine Learning; Data Structures and Algorithms in C++
- Competitions:** Paradox ML Challenge
- Practice:** Actively solving Data Structures & Algorithms problems on LeetCode for interview preparation

I hereby declare that the information provided above is true and correct to the best of my knowledge and belief.
